Engine Oil

LUB1062	<p>Agrifarm 4 Stroke Oil 30 20L (Lawnmowers)</p> <p>A high quality SAE 30 monograde engine oil for use in both petrol and diesel engines. The product is ideally suited for use in petrol engines fitted to agricultural and horticultural machines and may also be used in many diesel engines fitted to stationary equipment and generators.</p>
LUB1056	<p>Titan XTR 5W-30 5L</p> <p>A high performance, fuel economy fully synthetic engine oil. Combines a synthetic base oil with the latest and highest performance inhibitors available. Detergent, dispersant, oxidation and corrosion inhibitors and friction modifiers are incorporated to give excellent performance in many modern petrol and small diesel engines. Recommended for all applications where SAE 5W/30 engine oil of ACEA A1/B1, ACEA A5/B5 and / or API SJ/SL/CF is specified. It is particularly suitable for use in Ford petrol and diesel engines where this type of oil gives maximum fuel economy and engine durability.</p>
LUB1023	<p>Titan Cargo Plus 15W-40 20L</p> <p>A revolutionary diesel engine oil designed for commercial vehicles. The combination of state of the art additive technology with a new base oil matrix with very high oxidation stability provides the highest levels of performance regarding engine durability in highly stressed commercial vehicle engines.</p>

Multifunction/Universal Oil

LUB1042	<p>Agrifarm STO Plus 10W-30 20L</p> <p>Universal Tractor Oil suitable to use in most modern engines. Transmissions & Hydraulics</p>
LUB1044	<p>Agrifarm STOU MC 10W-40 20L</p> <p>Super high performance multifunction oil for agricultural and commercial vehicles.</p> <p>Recommended for use in engines, manual transmissions, hydraulic aggregates and final drives, with or without wet brakes.</p>

Gearbox/Hydraulic Oil

LUB1058	<p>Agrifarm UTTO MP 20L</p> <p>Super high performance oil for use in combined gearbox-hydraulic systems of agricultural and construction machinery.</p> <p>Systems requiring SAE 10W/30 can be filled using Agrifarm UTTO MP.</p>
---------	--

Gearbox Oil

LUB1031	Titan Gear Hyp Sae 90 20L (80/90) Heavy Duty oil for gearboxes and final drive units. Developed to exceed, internationally recognised specifications and classifications. For use where 80W/90 is recommended.
LUB1030	Titan Gear Hyp Sae 85W-140 20L Heavy Duty lubricant for fuel drives and certain gearboxes

LUB1033	Titan Gear LS SAE 90 20L High Performance Limited Slip gear oil for axles in commercial and agricultural vehicles. Titan Gear LS SAE 90 ensures safe operation of LS differentials and maximum lifetime of components.
LUB1037	Transfluid ATF3000 20L Automatic Transmission Fluid suitable for a large variety of applications. Protects against wear, sludge and corrosion. Suitable for commercial vehicles, cars and agricultural applications.

Hydraulic Oil

LUB1040	Renolin B 15 VG 46 20L Hydraulic and Lubricating Oil with additives to improve corrosion protection. Suitable as Universal Hydraulic Oil for all systems.
---------	---

Specialist Oils

LUB1059	Agrifarm Universal 2 Stroke 5L Specialist 2 Stroke Oil for tank mixing. Ideal for horticultural machinery, chainsaw, hedgecutters and trimmers.
LUB1021/2	Chainsaw Oil An extremely tacky lubricant, specially developed for the effective lubrication of bars and chains on pump-fed chain saws. Suitable for the heaviest duty applications and is particularly effective on larger machines. It incorporates effective corrosion inhibitors, load carrying agents and anti-wear aids.
DTC3408	Ecocool Cutting Oil 5 Ltr A high performance soluble oil cutting fluid for use in both ferrous & non-ferrous metalworking applications. It is formulated to control foam in very soft water, yet retain emulsion stability in very hard water (1000ppm). Affords excellent rust protection for ferrous metals and outstanding staining control for non-ferrous metals. ECOCOOL S 761 B provides extended service life and lower treatment costs.
DTC3407	Renoclean Solvent Cleaner 5L An oil bath cleaner with good solvency powers and is compatible with all metal substrates and non-metal substrates. Leaves a residue free finish.

PTO Identification Guide

Most information for recognising a PTO shaft is gained from following this step by step guide. With the help of a good measuring devise (i.e. Digital Vernier Calipers) make a note of the necessary measurements shown below.

1. Check dimensions of the Universal Joint as shown

A.....mm B.....mm

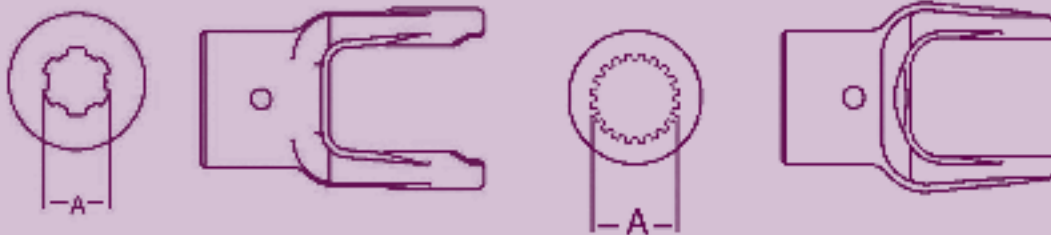

2. Make note of the profile of the steel tube

<input type="checkbox"/> Lemon		<input type="checkbox"/> Star	
<input type="checkbox"/> Triangle		<input type="checkbox"/> Other	

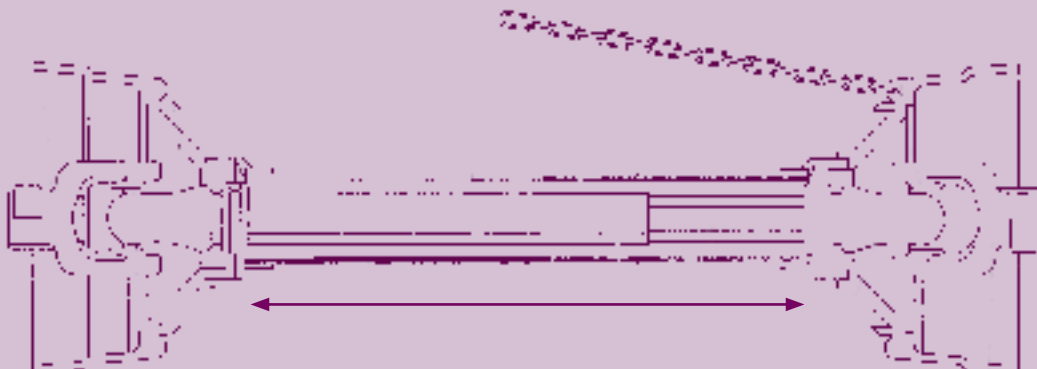

3. Confirm the size of splined shaft in each end of the yoke

6" Spline

20/21" Spline

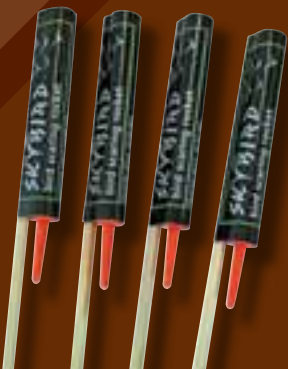

4. Determine the length of the PTO Shaft from u/j to u/j when it is closed
